THE BEST PLACE TO LEARN MEDICAL CODING

ICD 10 CM Update 2027

The 2027 ICD-10-CM files below contain information on the ICD-10-CM updates for FY 2027. These 2027 ICD-10-CM codes are to be used for discharges occurring from **October 1, 2026 through September 30, 2027** and for patient encounters occurring from October 1, 2026 through September 30, 2027.

The ICD-10-CM code set update for fiscal year (FY) 2027 was posted July 3 to the **Centers for Medicare & Medicaid Services (CMS)** website. The update, effective Oct. 1, includes **190 new codes, 30 code deletions, and 4 code revisions.**

Chapter 1: Certain Infectious and Parasitic Diseases (A00-B99), U07.1, U09.9

There are no any changes in this chapter.

Chapter 2: Neoplasms (C00-D49)

Three new codes are added based on secondary malignancy of more specific respiratory sites.

Status	Code	Code Description
Added	C50.A0	Secondary malignant neoplasm of larynx
Added	C50.A1	Secondary malignant neoplasm of pharynx .
Added	C50.A2	Secondary malignant neoplasm of oral cavity .

A secondary neoplasm is a cancer that has spread (metastasized) from its original/primary site to another part of the body.

Chapter 3: Disease of the blood and blood-forming organs and certain disorders involving the immune mechanism (D50-D89)

Three new codes are added for Functional disorder of Platelet defect. The broader code D69.1 (Qualitative platelet defects) is being replaced by the more specific D69.11 and D69.19.

Status	Code	Code Description
Deleted	D69.1	Bernard-Soulier [giant platelet] syndrome Glanzmann's disease Grey platelet syndrome Thromboasthenia (hemorrhagic) (hereditary) Thrombocytopathy
Added	D69.11	Glanzmann thrombasthenia
Added	D69.19	Other qualitative platelet defects

What is Glanzmann thrombasthenia?

It is a rare inherited qualitative platelet disorder in which platelets do not function normally because of a defect involving platelet aggregation. It can cause abnormal or prolonged bleeding.

When to use D69.19?

It is used for disorders in which platelet function is abnormal, but the condition is not Glanzmann thrombasthenia.

Chapter 4: Endocrine, Nutritional, and Metabolic Diseases (E00-E89)

Two new codes are added for postprocedural hypoglycemia following a procedure.

Status	Code	Code Description
Added	E89.830	Post bariatric hypoglycemia
Added	E89.838	Other postprocedural hypoglycemia

Hypoglycemia means abnormally low blood glucose (blood sugar) level.

Post-bariatric hypoglycemia (PBH) is low blood sugar that occurs **after bariatric surgery**, usually **1–3 hours after eating**, particularly after meals containing a significant amount of carbohydrates.

Why does it happen?

After bariatric procedures such as **Roux-en-Y gastric bypass**, food can pass into the small intestine more quickly than before. This can cause:

1. Rapid absorption of carbohydrates → blood glucose rises quickly.
2. The body releases a large amount of insulin and incretin hormones such as GLP-1.
3. Blood glucose then falls too much → **hypoglycemia**.

Chapter 5: Mental, Behavioral and Neurodevelopmental disorders (F01 – F99)

There are no any changes in this chapter.

Chapter 6: Diseases of the Nervous System (G00-G99)

There are no any changes in this chapter.

Chapter 7: Diseases of the Eye and Adnexa (H00-H59)

There are no any changes in this chapter.

Chapter 8: Diseases of the Ear and Mastoid Process (H60-H95)

There are no any changes in this chapter.

Chapter 9: Diseases of the Circulatory System (I00-I99)

Status	Code	Code Description
Deleted	I42.0	Dilated cardiomyopathy
Added	I42.00	Dilated cardiomyopathy, unspecified
Added	I42.01	Familial-genetic dilated cardiomyopathy
Added	I42.09	Other dilated cardiomyopathy
Added	I42.81	Arrhythmogenic cardiomyopathy
Added	I42.89	Other cardiomyopathy not elsewhere classified.
Added	I47.22	Catecholaminergic polymorphic ventricular tachycardia [CPVT]
Added	I49.81	Brugada Syndrome
Added	I49.82	Ventricular bigeminy
Added	I49.89	Other specified cardiac arrhythmias not elsewhere classified

What is Cardiomyopathy?

Cardiomyopathy is a disease of the heart muscle. It can make the heart muscle enlarged, thickened, stiff, or weak, which can reduce how well the heart pumps blood.

Chapter 10: Diseases of the Respiratory System (J00-J99), U07.0)

There are 6 new codes added.

Status	Code	Code Description
Added	J34.830	Odontogenic Sinusitis, Maxillary Sinus
Added	J34.831	Odontogenic Sinusitis, Ethmoid Sinus
Added	J34.832	Odontogenic Sinusitis, Frontal Sinus
Added	J34.833	Odontogenic Sinusitis, Sphenoid Sinus
Added	J34.839	Odontogenic Sinusitis, Unspecified
Added	J4B	Pulmonary mycetoma

Odontogenic Sinusitis is a sinus inflammation that originates from a dental.

Chapter 11: Diseases of the Digestive System (K00-K95)

There are 6 new codes added.

Status	Code	Code Description
Added	K31.B	Hypertrophic pyloric stenosis, in childhood
Added	K6A.01	Prevesical Abscess
Added	K6A.09	Other pelvic abscess
Added	K6A.B	Other disease of the pelvis, not elsewhere classified
Added	K74.0A	Hepatic fibrosis, moderate fibrosis
Added	K76.83	Intestinal failure-associated liver disease

Chapter 12: Diseases of the Skin and Subcutaneous Tissue (L00-L99)

There are 1 new codes added and 3 new codes revised.

Status	Code	Code Description
Revise	L02.232	From: Carbuncle of back [any part, except buttock] To: Carbuncle of back [any part, except buttock and Flank]
Added	L02.237	Carbuncle of Flank
Revise	L02.312	From: Cellulitis of back [any part, except buttock] To: Cellulitis of back [any part, except buttock and flank]
Revise	L02.322	From : Acute lymphangitis of back [any part except buttock] To :Acute lymphangitis of back [any part except buttock and Flank]

Chapter 13: Diseases of the Musculoskeletal System and Connective Tissue (M00-M99)

There are 31 new codes added.

Status	Code	Code Description
Added	M04.3	VEXAS Syndrome
Added	M67.A01	Plantar Fasciitis, right foot
Added	M67.A02	Plantar Fasciitis, Left foot
Added	M67.A09	Plantar Fasciitis, Unspecified foot
Added	M72.20	Plantar fascial fibromatosis, Unspecified foot
Added	M72.21	Plantar fascial fibromatosis, Right foot
Added	M72.22	Plantar fascial fibromatosis, Left foot

VEXAS syndrome is a rare, serious inflammatory disease caused by a mutation in the UBA1 gene. It usually develops later in life and is more common in men.

What is Plantar Fascia?

The **plantar fascia** is a **thick band of connective tissue on the bottom of the foot**. It runs from the **heel bone (calcaneus)** toward the **base of the toes**.

So, Plantar Fasciitis is the inflammation of plantar fascia.

Status	Code	Code Description
Added	M86.8X11- M86.8X12- M86.8X19	Other osteomyelitis, right shoulder-Left Shoulder- Unspecified shoulder
Added	M86.8X21- M86.8X22- M86.8X29	Other osteomyelitis, right upper arm – Left upper Arm- Unspecified upper arm
Added	M86.8X31- M86.8X32- M86.8X39	Other osteomyelitis, right forearm – Left forearm – Unspecified forearm
Added	M86.8X41- M86.8X42- M86.8X49	Other osteomyelitis, right hand – Left Hand- Unspecified Hand
Added	M86.8X51- M86.8X52- M86.8X59	Other osteomyelitis, right thigh- Left Thigh – Unspecified Thigh

Added	M86.8X61- M86.8X62- M86.8X69	Other osteomyelitis, right lower leg -Left lower Leg – Unspecified lower leg
Added	M86.8X71- M86.8X72- M86.8X79	Other osteomyelitis, right ankle and foot -Left ankle and foot – Unspecified ankle and foot
Added	M86.8X80	Other osteomyelitis, skull
Added	M86.8X81	Other osteomyelitis, faces and Sinuses
Added	M86.8X89	Other osteomyelitis, other site

Chapter 14: Diseases of Genitourinary System (N00-N99)

There are two new codes added.

Status	Code	Code Description
Added	N99.860	Intraoperative and Postprocedural Nipple ischemia
Added	N00.862	Intraoperative and Postprocedural Nipple necrosis

What is Nipple Ischemia?

As **ischemia**, it means **reduced or inadequate blood flow to a body part**, causing the tissue to receive less oxygen than it needs. So, Nipple ischemia means ischemia of the nipple.

Chapter 15: Pregnancy, Childbirth, and the Puerperium (O00-O9A)

There are total 44 new codes added.

Status	Code	Code Description
Added	O00.121	Right interstitial ectopic pregnancy without intrauterine pregnancy
Added	O00.122	Left interstitial ectopic pregnancy without intrauterine pregnancy
Added	O00.129	Unspec interstitial ectopic pregnancy without intrauterine pregnancy
Added	O00.131	Right interstitial ectopic pregnancy with intrauterine pregnancy
Added	O00.132	Left interstitial ectopic pregnancy with intrauterine pregnancy

Added	O00.139	Unspecified interstitial ectopic pregnancy with intrauterine pregnancy
-------	---------	--

What is interstitial ectopic pregnancy?

An **interstitial ectopic pregnancy** is a pregnancy that implants in the **interstitial part of the fallopian tube**.

Normally:

Ovary → Fallopian tube → Uterine cavity → pregnancy implants in uterus.

In an interstitial ectopic pregnancy:

Embryo implants → in the portion of the fallopian tube within the uterine muscle

Status	Code	Code Description
Added	O00.31	Cesarean scar ectopic pregnancy without intrauterine pregnancy.
Added	O00.32	Cesarean scar ectopic pregnancy with intrauterine pregnancy.
Added	O00.41	Cervical ectopic pregnancy without intrauterine pregnancy
Added	O00.42	Cervical ectopic pregnancy with intrauterine pregnancy

What is Cervical Scar ectopic pregnancy?

A **Cesarean scar ectopic pregnancy (CSP)** is a pregnancy that implants in the scar left in the uterus from a previous cesarean-section (C-section) delivery, rather than in the normal uterine cavity.

What is Cervical ectopic pregnancy?

A **cervical ectopic pregnancy** is a pregnancy in which the fertilized egg implants in the cervix, instead of the normal uterine cavity.

Status	Code	Code Description
Added	O00.511	Right cornual ectopic pregnancy without intrauterine pregnancy.
Added	O00.512	Left cornual ectopic pregnancy without intrauterine pregnancy.
Added	O00.519	Unspecified cornual ectopic pregnancy without intrauterine pregnancy

What is Cornual ectopic pregnancy?

A cornual ectopic pregnancy is a pregnancy that implants in the upper/lateral part of the uterus near where the fallopian tube connects to the uterus.

Status	Code	Code Description
Added	O31.40-	Continuing pregnancy after vanishing twin syndrome of one fetus or more, unspecified trimester
Added	O00.41-	Continuing pregnancy after vanishing twin syndrome of one fetus or more, first trimester
Added	O00.42-	Continuing pregnancy after vanishing twin syndrome of one fetus or more, second trimester
Added	O00.43-	Continuing pregnancy after vanishing twin syndrome of one fetus or more, third trimester

What is Vanishing twin syndrome?

Vanishing twin syndrome, it means one fetus in a twin pregnancy stops developing or is lost, while the other fetus continues to develop.

Chapter 16: Certain Conditions Originating in the Perinatal Period (P00-P96)

There are no any changes in this chapter.

Chapter 17: Congenital malformations, deformations, and chromosomal abnormalities (Q00-QA1)

There are total 9 new codes added.

Status	Code	Code Description
Added	Q87.A	Loeys-Dietz syndrome
Added	QA1.71	Lynch syndrome
Added	QA1.790	Familial cancer syndrome with pathogenic BRCA1 mutation

Added	QA1.791	Familial cancer syndrome with pathogenic BRCA2 mutation
Added	QA1.792	Li Fraumeni syndrome
Added	QA1.798	Other inherited neoplasm predisposition syndrome of multiple systems

What is Lynch Syndrome?

Lynch syndrome is an inherited genetic condition that increases a person's risk of developing certain cancers, especially colorectal (colon) and endometrial (uterine) cancer.

Chapter 18: Symptoms, signs, and abnormal clinical and laboratory findings, not elsewhere classified (R00-R99)

There are total 1 new codes added.

Status	Code	Code Description
Added	R78.72	Abnormal gadolinium level in blood

Chapter 19: Injury, poisoning, and certain other consequences of external causes (S00-T88)

Status	Code	Code Description
Added	T52.81--	Toxic effects of Alkenes
Added	T52.82--	Toxic effects of cycloparaffins
Added	T52.89--	Toxic effects of other organic solvents
Added	T59.82--	Toxic effects of hexamethylene diisocyanate
Added	T65.85--	Toxic effect of medetomidine

Chapter 20: External Causes of Morbidity

There are no any changes in this chapter.

Chapter 21: Factors influencing health status and contact with health services (Z00-Z99)

Status	Code	Code Description
Added	Z68.18	Body mass index [BMI] 18.4 or less, adult
Added	Z68.19	Body mass index [BMI] 18.5-19.9, adult
Added	Z77.013	Contact with and (suspected) exposure to gadolinium
Added	Z77.32	Contact with and (suspected) exposure to burn pits in war theater
Added	Z77.33	Contact with and (suspected) exposure to Agent Orange

Added	Z77.4-	Contact with and (suspected) exposure to blast overpressure
Added	Z86.17	Personal history of Clostridioides difficile infection
Added	Z87.8901	Personal history of social gender transition
Added	Z87.8902	Personal history of medical gender transition
Added	Z87.8903	Personal history of surgical gender transition
Added	Z87.8904	Personal history of intersex surgery
Added	Z87.8909	Personal history of unspecified gender transition
